**1. TITLE, AUTHORITY, COMPREHENSIVE PLAN, FINDINGS AND INTENT,
APPLICABILITY, EXEMPTIONS AND DELAYED EFFECTIVE DATE**

- 1.1 **Title:** This ordinance is entitled "Town of Saratoga Sign Ordinance," and may be referred to as the Sign Ordinance.
- 1.2 **Authority:** This ordinance is adopted pursuant to the general police powers of the Town of Saratoga. The Town Meeting granted Village powers to the Town pursuant to Wis. Stat. §§ 60.10, 60.22(3) and 61.34, as well as other authority set forth in the Wisconsin statutes.
- 1.3 **Comprehensive Plan:** The Town Board approved The Town of Saratoga Comprehensive Plan 2007-2025 ("Comprehensive Plan"), in August 2007. Although the Sign Ordinance derives its authority from the Town's power to regulate for the health, safety, welfare, and convenience of the public, the Sign Ordinance has been reviewed by the Plan Commission for consistency with the goals, objectives, policies and recommendations set forth in the Comprehensive Plan. By recommending approval of the Sign Ordinance, the Plan Commission finds that the Sign Ordinance is consistent with the goals, objectives, policies and recommendations set forth in the Comprehensive Plan.
- 1.4 **Findings and Intent:** The Board hereby finds that regulating the size, type and location of signs, all as set forth in this ordinance, is necessary for the health, safety, welfare, and convenience of the public in the Town by. Regulation of signs protects health, safety, welfare and general convenience of the public in many ways, including the following:
- 1.4.1 Improving both pedestrian and vehicular traffic safety by regulating competing and distracting demands for visual attention.
- 1.4.2 Establishing standards that promote the effective use of signs as a means of communication while enhancing public safety..
- 1.4.3 Providing uniform information and direction to travelers passing through the Town.
- 1.4.4 Safeguarding a major natural economic asset of the Town, which is the natural beauty of the land and the scenic roads, woodlands and waters.
- 1.4.5 Protecting property values, public and private investment in property and business assets in the Town.
- 1.4.6 Preventing visual blight and clutter, which detracts from the natural character of the Town.

- 47 1.4.7 Minimizing possible adverse effects of unregulated signs on nearby public
48 and private property.
49 1.4.8 Establishing a permitting system that allows the Town to control the size,
50 type and location of signs, and require maintenance of signs, all in a
51 manner that reflects community standards and general welfare.
52 1.4.9 Providing for enforcement of sign regulations to ensure ongoing
53 compliance and protection of health, safety, welfare and convenience of
54 the public in a manner that is fair and consistent.

55 1.5 **Applicability: In General:** All signs hereafter located, erected, moved within or into
56 the Town, constructed, enlarged, or structurally modified shall be in conformity with
57 the provisions of this ordinance. Signs adjacent to state highways shall comply with
58 provisions of Wis. Stat. § 84.30 and Wis. Admin. Code Trans 201 and the provisions of
59 this ordinance, wherever applicable. Where either State sign regulations or this
60 ordinance are more or less restrictive, the more restrictive regulations shall apply.

61 1.6 **Applicability to Existing Signs: Delayed Effective Date:** In addition to the Town's
62 findings that the regulation of signs is a matter of health, safety, welfare, and
63 convenience of the public, the Town also recognizes that the private costs and burdens
64 associated with compliance uniquely impact existing signs. Therefore, in the spirit of
65 fairness and economic realities, this ordinance shall not apply immediately to signs
66 that exist in the Town on April 1, 2013 (referred to as "existing signs" in this section).
67 Solely as to such existing signs, this ordinance shall have a delayed effective date of
68 June 1, 2015. With this sole exception, the ordinance shall be effective upon adoption
69 and publication as required by law.

70 2. DEFINITIONS AND REQUIREMENTS

- 71 2.1 **Abandoned Sign:** A sign which no longer identifies or advertises a bona fide business,
72 lessor, service, owner, product available or activity conducted on the premises where
73 the sign is displayed or elsewhere.
- 74 2.2 **Advertising Vehicle:** The use of a car, truck, bus, trailer or parts thereof (collectively
75 referred to as "vehicle" in this definition) to advertise products or services or direct
76 persons to a business, where (a) the vehicle is generally unrelated to the products,
77 services or direction, (b) the vehicle is generally stationary or rarely moved, and/or (c)
78 the vehicle is being used for purposes that are generally equivalent to signage. The
79 term "advertising vehicle" as used in this ordinance is not intended to and does not
80 include vehicles that are primarily used for transportation, and also have a business
81 name, trademark or similar advertising painted or adhered to the vehicle. For
82 example, a tow truck that has the name and number of the garage painted on the
83 vehicle's doors¹ and that is regularly used by the mechanic from the garage to tow
84 disabled trucks to the garage does NOT constitute an "advertising vehicle" under this
85 ordinance. On the other hand, a disabled vehicle parked near the public right-of-way
86 with a placard that states "Drive-In for the Best Breakfast in Town!" would be
87 considered an "advertising vehicle" and would be regulated by this ordinance.
- 88 2.3 **Animated sign:** Any sign which uses movement, reflection or changing of light to
89 depict action or to create a special effect or scene (compare to "flashing sign").

¹ NOTE: This ordinance is not intended to regulate painted markings or magnetic panels such as those frequently placed on the doors of commercial vehicles.

- 90 2.4 **Area of Sign:** Sign area consists of the entire surface area of the sign excluding the

122 used as a symbol of a business, corporation, government, political subdivision or other
123 entity.

- 2.30 **Off-Premise Sign:** A sign which advertises goods, products, facilities or services not on the premises where the sign is located, or directs persons to a different location from where the sign is located.
- 2.31 **On-Premise Sign:** Any sign indentifying or advertising a business, person, activity, goods, products or services located on a premise where the sign is installed.
- 2.32 **Permanent Sign:** A sign or advertising display which is permanently attached to the ground by support posts, has a fixed base, or is attached to a building, and/or which is not designed or capable of being moved intact. Not a portable sign or temporary sign (see definitions below). If a sign display area is permanent but the message displayed is subject to periodic changes, that sign may qualify as a permanent sign.
- 2.33 **Political Sign:** A sign containing a political message, as defined in Wis. Stat. § 12.04. (This ordinance does not regulate political signs, but rather defers to State election law. See Wis. Stat. § 12.04.)
- 2.34 **Portable Sign:** Any sign not permanently attached to the ground by support posts, a fixed base, or attached to a building, and/or which is designed or capable of being moved intact. For example, a sign designed to be moved intact on its own trailer or carriage is a "portable sign."

Signs DO NOT include the flag or emblem of any nations, organizations of nations, state, city, religious, fraternal, or civic organization; also merchandise and pictures or models of products, or services incorporated in window displays, or works of art not identifying a product.
- 2.40 **Sign Structure:** Any device or material which supports, has supported, or is capable of supporting a sign in a stationary position, including decorative covers.
- 2.41 **String Sign:** Any sign in which lights, ribbons, pennants or other similar small, attention-drawing devices are attached to a rope, string, wire, pole or similar support. In appropriate circumstances, string signs may be regulated as temporary signs.

Similarly, the volunteer fire department might display a temporary sign to draw attention to the annual festival. If a sign display area is permanent but the message displayed is subject to periodic changes, that sign shall not be considered temporary.
- 2.47 **Vision Obstruction:** No sign shall be placed which would prevent a full view of both pedestrian and vehicular traffic. Sign placement shall not create a vision obstruction adjacent to road intersections, right-of-way, alleys, trails and/or adjacent access points (public and private driveways).

3.3 **Illumination:** Unless otherwise specified by this ordinance, all signs may be illuminated. Underground wiring is required on all signs connected to a remote electric source. Exterior lighting fixtures shall be oriented and shielded so the lighting element is not visible from traffic, and shall not shine into any residence. The use of solar powered lighting is encouraged.

3.4 **Changeable Copy:** Unless otherwise specified by this section, any sign permitted under this ordinance may use manual or automatic changeable copy.

3.5 **Maintenance:** Every sign for which permits are required, shall be maintained in a safe structural condition. Maintenance shall include cleaning, painting, replacement of any loose material or defective or damaged parts and maintenance of the structural integrity of the sign and sign structure.

3.6 **Prohibited Signs:** The following signs are prohibited:

3.6.1 Any sign animated by means of flashing, blinking or rotating lights, as part of the sign or attached thereto, or signs with physically moving components visible from the public right-of-way. Electronic message signs are not prohibited.

4. PERMIT PROCEDURES AND REQUIREMENTS

- 4.1 Unless exempt under this ordinance,² no person shall locate, erect, move, construct, enlarge or substantially change a sign within the Town until a sign permit for each such sign has been issued in accordance with this ordinance.
- 4.2 The applicant shall submit to the Town Board or it's designee an application on an approved form from the town together with a drawing showing all the dimensions of the sign, including the length, height, and width of the sign and supporting structure or base, and its proposed location on the property where the sign will be erected.
- 4.3 Permits shall not be required for a change of copy, repainting, cleaning and other normal maintenance or repair of a sign and sign structure, nor for erecting or modifying any sign not requiring a permit.
- 4.4 Permit fees. *See* Fee Schedule adopted by resolution of the Town Board.
- 4.5 Permit issuance or denial. The Town Board or its' designee shall issue a permit for the erection, structural alteration, enlargement or relocation of a sign within the Town when the permit application is properly made, all appropriate fees have been paid and the sign complies with the appropriate laws and regulations. In the event that the designee is uncertain whether the application complies with appropriate laws and regulations, the designee may provide notice to the applicant and refer the application to the Town Board for its determination. If the sign permit is denied by the designee, written notice of the denial shall be given to the applicant, together with a brief explanation of the basis for the denial.
- 4.6 Appeal from permit denial.
- 4.6.1 Appeal from denial of a sign permit may be taken to the Town Board. Such an appeal can be made at a regularly scheduled Town Board meeting, provided a request for hearing is made in writing to the building inspector no less than 15 calendar days before a scheduled meeting. The building inspector shall comply with and enforce the Town Board's decision.
- 4.6.2 The building inspector's failure to either formally grant or deny a sign permit within ten (10) business days of the date an application meeting the requirements of this article is filed shall also be sufficient cause for appeal to the Town Board.
- 4.6.3 If the appeal from a permit denial involves a sign existing in the Town as of April 1, 2013, the Town Board shall not only consider whether the sign complies with appropriate laws and regulations, but shall also expressly consider the Findings and Intent set forth in Section 1.4 and may consider economic factors and relevant contractual obligations. For example, if a sign is less than 10 years old, has not been fully depreciated and was expensive to purchase and install, that would be a relevant economic factor for consideration. Relevant factors will be identified and considered on a case-by-case base.

² *See*, for example, Sections 5.1 and 5.2.

Town of Saratoga

Ordinance to Amend the Sign Ordinance 06-18-2014

The Saratoga Town Board, County of Wood, do hereby ordain and amend the Sign Ordinance as follows:

Section 4. Permit Procedures and Requirements:

4.2 The applicant shall submit to the Town Board or its designee an application on an approved form from the town together with a drawing showing all the dimensions of the sign, including the length, height, and width of the sign and supporting structure or base, and its proposed location on the property where the sign will be erected.

4.5 Permit issuance or denial. The Town Board or its designee shall issue a permit for the erection, structural alteration, enlargement or relocation of a sign within the Town when the permit application is properly made, all appropriate fees have been paid and the sign complies with the appropriate laws and regulations. In the event that the designee is uncertain whether the application complies with appropriate laws and regulations, the designee may provide notice to the applicant and refer the application to the Town Board for its determination. If the sign permit is denied by the designee, written notice of the denial shall be given to the applicant, together with a brief explanation of the basis for the denial.

This amendment to the sign Ordinance shall be effective upon passage upon the Town Board of the Town of Saratoga and upon publication provided by law.
